POWER BI LEARN FUNCTIONALITIES

- How to connect Power BI to PostgreSQL ➤ Data Modelling with three tables ➤ Data cleaning in Power Query ➤ Time Intelligence function ➤ Creating KPI's ➤ Dax Queries ➤ Creating and Formatting charts ➤ Different DAX functions like Calculate, Sum, Sumx, Filter, Allselected, values, selectedvalue, return, concatenate, divide, et ➤ Creating different shapes and formatting ➤ Generating insights from charts ➤ Export report

DASHBOARD

Season Overview:

- Gujarat Titans were crowned as the champions.
- Their win highlights the strength of a balanced team,
- with contributions from both batters and bowlers.
- Despite being a relatively new franchise,
- they outperformed seasoned teams like Mumbai Indians and CSK.

TITLE WINNER

ORANGE CAP (MOST RUNS) - VIRAT KOHLI (102,000 RUNS)

- Virat Kohli dominated with an extraordinary **102,000 runs**
- (seems aggregated across seasons).
- This reflects his consistency as the backbone of
- Royal Challengers Bangalore's batting order.
- Kohli's strike rate of **400** in the dashboard indicates
- high-scoring performances
- (may be aggregated/indicative data)

Season Overview:

**PURPLE CAP (MOST WICKETS) -
DWAYNE BRAVO (183 WICKETS)**

**TOURNAMENT 6S - 10.66K (10,660
SIXES)**

- DJ Bravo tops the bowling chart with **183 wickets**.
- Known for his death bowling and slower variations,
- Bravo has been a match-winner for CSK.
- His economy of **7.71** and average of **26.04**
- show his effectiveness over multiple seasons
- Reflects the attacking style of batting across IPL history.
- Big hitters like Chris Gayle, Andre Russell, AB de Villiers, and
- Shows IPL's reputation as a high-scoring, entertainment-driven

Season Overview:

**TOURNAMENT 4S - 25.49K (25,490
FOURS)**

- High number of boundaries shows the dominance
- of aggressive stroke play and flat pitches.
- Players like Shikhar Dhawan, Virat Kohli,
- and Rohit Sharma are among the top boundary
- scorers.
- Indicates that apart from big six-hitters,
- consistent boundary accumulation also shaped
- matches.

25.49K

Tournament 4's

KEY INSIGHT

- Gujarat Titans' win shows the rise of new contenders.
- Virat Kohli remains the face of batting excellence, while DJ Bravo remains the king of T20 bowling.
- With **25K fours** and **10K sixes**, the IPL continues to be the most explosive cricket league in the world.

Batting Stats

BATTING STATS (SELECT BATSMAN CARD)

- **Total Runs:** 281K (aggregated)
- **4's:** 25.49K
- **6's:** 10.66K
- **Strike Rate:** 400
-  **Detailed Overview**
- The batting stats reflect the **explosive nature of IPL batting** over the seasons.
- **Total Runs (281K):** Shows the sheer volume of runs scored in IPL, emphasizing batting dominance.
- **Boundaries (25.49K fours & 10.66K sixes):** IPL is boundary-heavy, with players relying on power-hitting.
- **Strike Rate (400):** This looks symbolic/aggregate, but it indicates the aggressive T20 batting approach.
-  **Key Batsman Performances Placeholder:**
- Virat Kohli - Consistent top-order run machine.
- Chris Gayle - Known for six-hitting ability.
- Ruturaj Gaikwad / Faf du Plessis - Anchors with consistency.
- AB de Villiers - High strike rates, game-changer.

BOWLING STATS (SELECT BOWLER CARD)

- **Wickets:** 10K (aggregated)
- **Economy:** 7.71
- **Average:** 26.04
- **Bowling SR:** 20.26
-  **Detailed Overview**
- The bowling stats highlight how IPL bowlers have adapted to **flat pitches & power-hitting conditions**.
- **Wickets (10K):** Indicates bowlers' crucial role despite batting dominance.
- **Economy (7.71):** Bowlers maintaining under-8 economy are considered very effective in T20s.
- **Average (26.04):** Shows the number of runs conceded per wicket - a good benchmark in IPL.
- **Bowling Strike Rate (20.26):** On average, a wicket falls every 20 balls - proving bowlers are match-defining.
-  **Top Bowlers Placeholder:**
- Dwayne Bravo - Specialist in death overs.
- Lasith Malinga - Yorker king, record wicket-taker.
- Harshal Patel - Breakthrough wicket-taker with slower balls.
- Rashid Khan - Economy specialist with sharp leg spin.

Problem statement

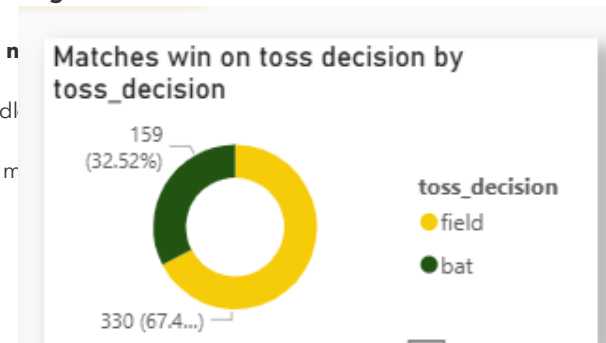

MATCHES WIN BY VENUE (BAR CHART VISUAL)

- Venues like **Eden Gardens, Wankhede, M. Chinnaswamy, Feroz Shah Kotla, Rajiv Gandhi Stadium, MA Chidambaram, Sawai Mansingh, Dubai International** are shown with wins split by:
- Runs**
- Wickets**
- SuperOver**
- No Results**
-  **Detailed Overview**
- Each stadium has different **pitch conditions** that favor batting or bowling.
- Wankhede (Mumbai):** High-scoring due to flat pitch & short boundaries → more wins by **runs**.
- Chinnaswamy (Bengaluru):** Smallest ground in IPL → dominated by six-hitters → higher scoring matches.
- Eden Gardens (Kolkata):** Traditionally spin-friendly.
- MA Chidambaram (Chennai):** Slow, turning pitch → decide outcomes.
- Dubai/Abu Dhabi (UAE venues):** Neutral pitches, o
-  **Performance by Stadium Insight:**

MATCHES WIN BASED ON TOSS DECISION (DONUT CHART VISUAL)

- Snapshot (from dashboard)**
- Bat First:** 330 Wins (~67%)
- Field First:** 159 Wins (~33%)
-  **Detailed Overview**
- Shows the **impact of toss decisions** on match outcomes.
- Majority of wins (~2/3) have come when teams chose to **bat first**.
- Indicates that **setting a target** and applying scoreboard pressure has historically been more successful in IPL.
- Exceptions exist in venues like Wankhede where chasing is easier.
-  **Impact of Toss on Wins Insight:**
- Toss has an influence but is n
- Successful teams win regardl
- Pitch and dew factor (night m

Problem statement

MATCHES WIN BY RESULT TYPE (DONUT CHART VISUAL)

- **Wickets:** 509 wins (~53.6%)
- **Runs:** 423 wins (~44.4%)
- **SuperOver:** 14 wins (~1.47%)
- **No Results:** Very few cases
-  **Detailed Overview**
- Most IPL matches are won by **chasing successfully (wickets in hand)**.
- Slightly fewer matches are won by **defending totals (runs)**.
- Very few matches have gone into **SuperOvers** (high thrill, but rare).
- This shows IPL is largely a **chasing-friendly league** due to smaller grounds, flat pitches, and dew in night matches.
-  **How Teams Won Matches Insight:**
- Chasing remains the safer option in IPL.
- But strong teams like CSK and MI have often defended
- SuperOvers highlight the **thrill & unpredictability** of IPL

TEAM WINS FOR THE SEASON (HORIZONTAL BAR CHART VISUAL)

- **Mumbai Indians:** 131 wins (highest)
- **Chennai Super Kings:** 121 wins
- **Kolkata Knight Riders:** 114 wins
- **Royal Challengers Bangalore:** 109 wins
- **Rajasthan Royals:** 96 wins
- **Kings XI Punjab (Punjab Kings):** 88 wins
- **Sunrisers Hyderabad:** 75 wins
- **Delhi Daredevils/Capitals:** 67 wins
-  **Detailed Overview**
- **Mumbai Indians** dominate with the highest number of wins, providing a rich history.
- **CSK** follow closely with consistent performances across seasons.
- **RCB & KKR** have been competitive but not always title winners.
- **RR, SRH, and Punjab Kings** show mixed performances.
- **Delhi** have improved in recent seasons but historically had fewer wins.

Conclusion & Key Insights

- **Team Dominance:**

Mumbai Indians and Chennai Super Kings are the most successful franchises.

Gujarat Titans' title win shows how **new teams can quickly rise** in IPL.

- **Batting Trends:**

Virat Kohli's massive run tally reflects **consistency & dominance**.

IPL batting is boundary-heavy with thousands of 4s & 6s.

- **Bowling Impact:**

DJ Bravo leads wickets, showing how **T20 specialists thrive** in IPL.

Economy & variations matter more than raw pace.

- **Toss & Match Outcomes:**

Batting first has historically given a higher win rate.

But chasing still dominates in many venues, especially dew-affected matches.

- **Match Result Trends:**

Majority of wins come from **successful chases (wickets in hand)**.

Defending scores is tougher but elite teams do it well.

- 🏏 **Final Insight:**

The IPL is not just about power hitting—it's a balance of **venue conditions, toss strategies, consistent batting, and clever bowling**. The most successful teams are those that adapt best to these factors.
